

Safety Sets

Construction Set type „Basic“

Basic set for work with attachment point above user (operating range: 2m)

- basic full body harness type MB10-E with 1 D-ring for fall arrest in the back
- shock absorbing lanyard type BFD-27 with steel snap hook Type MB51, 2m
- back pack, black

Article-No. 50010014

Construction Set type „Pro“

For construction- and service work with long operating range

- full body harness type MB30 with 1 D-ring for fall arrest in the back and 1 D-ring for fall arrest in the front
- fall arrester type FSK-SK12, 15m
- anchoring lanyard type FRS-27, 1,5m
- robust plastic case, black

Article-No. 50010011

Steel Construction Set Type „Basis“

Safety Set for construction and service work in the steel construction industry

- full body harness Type MB30 with 1 D-ring for fall arrest in the back and 1 D-ring for fall arrest in the front
- fall arrester Type FSK-SK12, 10m
- anchoring lanyard Type FRS-27, 1,5m
- robust flexible PVC-bag

Article-No. 50010190

Steel Construction Set Type „Pro“

Professional Safety Set for extensive construction and service work in the steel construction industry

- full body harness Type MB100 Komfort with 1 D-ring in the back, 1 D-ring in the front, 2 lateral D-rings for work positioning
- fall arrester Type FSK-SK12 with aluminum rebar hook Type FS90, 15m
- anchoring lanyard Type FRS-27, 1,5m
- flexible PVC-Backpack

Article-No. 50010191

Safety Sets

Scaffolding Set type „Basic“

Set especially for scaffolding
(certified acc. to EN363:2008)

- full body harness type MB10-E Var. VB with 1 D-ring for fall arrest in the back and fixed webbing lanyard 0,5m
- shock absorbing lanyard type BFD-FLEX with aluminum rebar hook Type FS90, 2m
- robust flexible PVC-bag

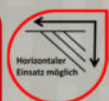

Article-No. 50010063

Scaffolding Set type „Pro“

Professional set especially for scaffolding
(certified acc. to EN363:2008)

- full body harness type MB100 Var. VB with 1 D-ring in the back, 1 D-ring in the front, 2 lateral D-rings and fixed webbing lanyard 0,5m
- 2-string lanyard type Y-BFD FLEX with aluminum rebar hook Type FS90, 2m
- robust plastic case, black

Article-No. 50010064

Roofing Set type „Basic“

Basic set for roofer

- full body harness type MB30 2T-TS with 1 D-ring for fall arrest in the back and 1 textile attachment point for fall arrest in the front (2 textile loops)
- fall arrester type FSK-SK12, 10m
- robust plastic case, black

Article-No. 50010042

Roofing Set type „Pro“

Professional set for roofer

- full body harness type MB95-E with 1 D-ring for fall arrest in the back and 2 lateral D-rings for work positioning
- fall arrester type FSK-SK12, 15m
- anchoring lanyard type FRS-27, 2m
- steel case, black

Article-No. 50010041

Building Cleaning Set type „Basic“

Basic set for facade-and window cleaning

- full body harness type MB30 2T-TS with 1 D-ring for fall arrest in the back and 1 textile attachment point for fall arrest in the front (2 textile loops)
- shock absorbing lanyard type BFD-27 with steel snap hook type MB51, 2m
- robust plastic case, black

Article-No. 50010130

Building Cleaning Set type „Pro“

Professional set for extensive facade- and window cleaning services

- full body harness type MB95-E with 1 D-ring for fall arrest in the back and 2 lateral D-rings for work positioning
- fall arrester type FSK-SK12, 10m
- steel case, black

Article-No. 50010133

Lifter Set type „Basic“

For fall arrest and restraint purposes on mobile elevating platforms. The lanyard is especially tested for the application in mobile elevating platforms (acc. to DIN 19427:2017-4)

- full body harness type MB30 2T with 1 D-ring for fall arrest in the back and 1 textile attachment point for fall arrest in the front (2 textile loops)
- adjustable lanyard type BFD-27R with aluminum snap hook type FSK-10 and shock absorber Type BFD-2, length: 1,8m
- back pack, black

Article-No. 50010167

Lifter Set type „Basic“

For fall arrest and restraint purposes on mobile elevating platforms. The lanyard is especially tested for the application in mobile elevating platforms (acc. to DIN 19427:2017-4)

- full body harness type MB30 with 1 D-ring for fall arrest in the back and 1 metal ring for fall arrest in the front
- adjustable lanyard type BFD-27R with aluminum snap hook type FSK-10 and shock absorber Type BFD-2, length: 1,8m
- robust plastic case, black

Article-No. 50010168

Safety Sets

High Racking Set type „Basic“

Lightweight set for work with long operating range and climbing in high racks

- full body harness type MB30 2T with 1 D-ring for fall arrest in the back and 1 textile attachment point for fall arrest in the front (2 textile loops)
- adjustable lanyard type BFD-27R with aluminum snap hook type FSK-10 and shock absorber Type BFD-2, length: 1,8m
- back pack, black

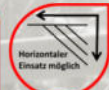

Article-No. 50010450

High Racking type „Pro“

Professional set for work with long operating range and positioning in high racks

- full body harness type MB30 with 1 D-ring for fall arrest in the back and 1 metal ring for fall arrest in the front
- adjustable lanyard type BFD-27R with aluminum snap hook type FSK-10 and shock absorber Type BFD-2, length: 1,8m
- robust plastic case, black

Article-No. 50010451

Climbing Set type „Basic“

The ideal set for applying on fall protection ladder systems on buildings, towers or confined spaces

- full body harness type MB95 S with 1 D-ring in the back and 2 lateral D-rings as well as 1 climbing D-ring in the front
- shock absorbing lanyard Type BFD-27 with aluminum rebar hook type FS90, 1,5m
- adjustable lanyard type MASI MB4 SK with steel snap hook type MB51, 1,5m
- steel case, black

Article-No. 50010180

Climbing Set type „Pro“

The professional set for height access systems on power transmission lines, buildings or towers

- full body harness Type MB100 S Komfort with 1 D-ring in the back, 1 D-ring in the front, 2 lateral D-rings for work positioning, 1 climbing D-ring in the front
- 2-string lanyard type Y-BFD with aluminum rebar hook type FS90, 1,5m
- adjustable lanyard Type MASI MB4 SK with steel snap hook type MB51, 1,5m
- fall arrester type FSK-SK12 with aluminum rebar hook type FS90, 10m
- flexible PVC-Backpack
